

# 14<sup>th</sup> Ecology and Behaviour conference: 19-24 may 2019 **Meeting**

## Ecology and Behaviour 2019 19-24 May 2019, Toulouse (France)

*The annual conference by and for PhD students and young researchers  
working in Ecology, Evolution and Behaviour*

- Intraspecific interactions
- Phylogeny and population genomics
- Non-genetic heredity
- Cognition: learning and memory
- Interspecific interactions
- Conservation and global change ecology
- Ecophysiology and Ecotoxicology

The « Ecology and Behaviour » conference is organised by and for young researchers. This event is an ideal opportunity for master, PhD students and postdocs to discuss their works with other researchers in the field of ecology, evolutionary biology and behavioural ecology.

The conference, organized by the students of EDB laboratory, takes place at the

amphitheater Riquet (INSA), located on the campus of the Université Toulouse III Paul-Sabatier.

With the participation of Etienne Danchin, Julia Dupin, Alexandre Réjaud, Jordi Salmons, Lisa Fourtune, Jade Bruxaux, Sandra Baksay, E-Ping Rau, Laura Gervais, Ivan Paz-Vinas
